

SECRET

INFORMATION FOR DIRECTOR'S LOG

From: General Counsel

8 March 1951

25X1

GAO Auditor Taylor requested verification of statements which he obtained from Treasury of agent cashier accounts of OSS officers handling unvouchered expenditures from 1941 to 1946. From past experience, it is expected that Taylor is trying to get in to the details of handling unvouchered accounts, and due to the detailed information on covert operations in finance records and the continuity of operations from OSS times to the present, General Counsel and the Comptroller intend to inform Mr. Taylor that verification of the old accounts is not at this time a proper matter for GAO review.
